

ECHOES Flash #7

23rd June 2016

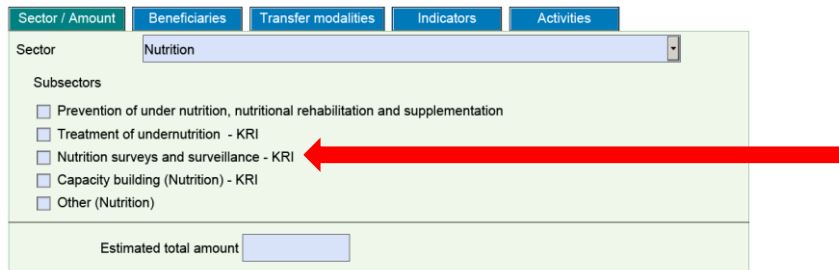

ECHO has just launched in APPEL a new release of the Single Form. The changes concern the section 4, Logic of Intervention and in particular the specific objective and the results sections.

At **specific objective level**, pre-defined Key Outcome Indicators (KOI) have been introduced in order to better capture the actual effects of the humanitarian action. It will still be possible though for the partner to add custom indicators manually.

4.2.3 Indicators

In the **tab results**, it is now possible to select subsectors marked "... - KRI". This will automatically add the KRI of the subsector to the indicator lists. The number of KRI has been reduced from 113 to 35. In a new tab "**Transfer modalities**", the partner is now invited to provide detailed information on cash, vouchers and in kind transfers when applicable.
