ECHOES Flash #12

17th November 2017

New Key Results Indicators under the sector of **Protection** have been introduced!

You can find the updated version of the KRI's list in English and in French in the "*Reference Documents*" section of the DG ECHO Partner website available at this link http://dgecho-partners-helpdesk.eu/reference_documents/start

You are required to use them in the same manner as with KRIs of other sectors. Please also note that under the sub-sectors of 'Prevention of and response to violence' and 'Gender-based violence (prevention, response, other)' there are two possible KRIs. In these cases you should select the KRI that most applies to the focus of your action – response or prevention -, and you may subsequently add the other KRI as a custom indicator if needed.

Don't forget to access in APPEL and download the new eSF where this indicators have been inserted accordingly.
